Work Experience

Synergy Learning
Role: UX Developer | May 2019 - Current
Tech: HTML, SCSS, Bootstrap, Sketch, JS/jQuery, PHP, Git, Node

- Developing E-learning web applications (themes & plugins specifically)
- Work with a multitude of well-known clients such as United Nations, Western Union, GOV UK & Ryanair
- Theme lead on projects with 60k+ budget and a user reach of 500k
- UX driven project lifecycle/processes
- Work collaboratively with designers, QA, PM & sales team.
- Led multiple UX workshops for clients, delivering a fantastic user experience.
- Involved in the on-boarding process and acting as a mentor for new staff

Randox Laboratories
Role: Full Stack Developer | June 2018 - May 2019
Tech: HTML, CSS, C#, JS, SQL, Microsoft Azure.

- Randox laboratories is a global leader in the health care industry, providing clinical diagnostic solutions worldwide.
- I worked as part of a development team to create new material/manage the existing internal and client facing applications. Most noticeably the Randox health online portal - where users could log on and access their medical results.
- Followed an agile process, with daily meetings, design sessions, prototyping, implementing and testing.

Direct Timber Fencing & Decking
Role: Web developer/branding | 2016 - current
Tech: WordPress, HTML, CSS, sketch

- Direct Timber is a family run business, and in my spare time I love to help out as much as possible.
- My keen interest in design has allowed me to produce business cards, advertisement posters, a Facebook business page and a website for the company.

My Diabetes My Way

Role: Intern Software Developer | Jun - August 2017
Tech: HTML, CSS, ASP.NET, C#, SQL

- I worked for the University of Dundee as part of a 12-week placement during level three and four of my academic studies.
- During this period, I worked on a project called 'My Diabetes My Way', which is an interactive website funded by NHS Scotland, aimed at helping diabetics manage their condition
- I developed care measure comparison reports, a patient health questionnaire and assisted in the development of an e-learning tool for type two diabetics.
